# We Are Learning to Use Carroll Diagrams to Sort Numbers.

Add the following numbers to the Carroll Diagram in the right place:

17   19   34   38   14   26   51   48   29   44   65

Think of another number that would fit in each box.

|  | Number is 30 or more | Number is less than 30 |
|---|---|---|
| Digits add up to 10 or more |  |  |
| Digits add up to less than 10 |  |  |
